GURABA ENGINEERING LTD.

Guraba Engineering Ltd is doing business all kind of Fire fighting equipment with disaster management products.

However with the rise in number of natural disasters and in the absence of specialized equipments, Guraba Engineering Ltd has proved to be a one stop solution for providing the Fire fighting and Rescue teams with state of the art equipments, helping them to deal with emergencies more effectively and efficiently.

Guraba as the name suggests has always played an important role in mitigating the impact of these disasters for their clients with the right planning, preparation and real time testing of various disaster management solutions.

Having tied up with various companies all over the world in order to bring the top of the line safety products to your door step, We have had a annual growth of over 300% over the past few years with a continually growing list of esteemed clients like Fire brigade, Civil Defence, Disaster Management Organisations, Home guards, Police etc.

We at Guraba are a team of technically qualified safety experts who specialize in providing not only solutions which cater to disaster management, but also providing our customers with training programs that are tailored & customized to specifically meet the needs of individual customer.
